

Content of Rubric Food and Science 2015

Issue 1-2

A study on a migration of bisphenol A from polycarbonate bottles for water dispensers

Svetla Chavdarova, Assoc. Prof. Dr. Terry Vrabcheva, PhD, Tanya Barakova

National Center for Public Health and Analyses

-mail: t.vrabcheva@ncpha.government.bg

Industrial crossing cows Bulgarian black streaky ox bulls breed Aberdeen Angus in dairy farms in the region of Pleven

Nikolay Tsvetanov Markov

Research Institute of Mountain Stockbreeding and Agriculture, Troyan,

e-mail: mim67@mail.bg

Issue 3

Technological quality of genotypes durum wheat, harvest 2012

Assoc. Prof. Ivanka Petrova PhD, Assistant Ekaterina Aleksandrova,

Assoc. Prof. Nadka Mihalkova PhD, Prof. Gabriela Marinova PhD

Prof. Valentin Bachvarov DTS

Institute of Cryobiology and Food Technologies

Lumbrikultura (vermitehnologiya) in treatment of manure and waste Silage and haylage in cattle

N. Markov

Institute of Mountainous Animal Breeding and Agriculture, Troyan, 5600

mim67@mail.bg

Issue 4

The effect of different marinating types on the sensory and technological properties of meat. A review

Dessislava Vlahova-Vangelova, Stefan Dragoev, Dessislav Balev

Department of Meat and Fish Technology, Technological faculty, University of Food

Technology, Plovdiv, Bulgaria

- mail: logos2000lt@gmail.com

Validation of HPLC method for analysis of caffeine in soft drinks

Maria Kaneva, Iskra Varbanova, Radostina Trendafilova, Plamena Nedelcheva*, Georgi Kostov

University of Food Technologies - Department of Wine and Beer Technology, *Department of Biochemistry and Molecular Biology

Issue 5

Investigation of permeate flux of ultrafiltration membranes depending on the working pressure and treated liquid

S. Kozludzhova, M. Dushkova, K. Dinkov, St.Petrov

Technological quality of genotypes durum wheat, harvest 2013

Assoc. Prof. Ivanka Petrova PhD, Assistant Ekaterina Aleksandrova, Assoc. Prof. Nadka Mihalkova PhD, Prof. Gabriela Marinova PhD, Prof. Valentin Bachvarov DTS
Institute of Cryobiology and Food Technologies, -mail: pupesa@yahoo.com

Issue 6-7

Comparative study between bread from wheat and einkorn

Assoc. Prof. PhD Nadka Mihalkova, Assist. Prof. PhD Silviya Ivanova, Assist. Prof. Iliana Borisova, Prof. PhD Gabriela Marinova, Prof. DSc Valentin Batchvarov
Institute of Cryobiology and Food Technology, -mail: nmihalkova@abv.bg

Dietary means and supplements against excess carbohydrates in the human body

d-r Goran Popov

Issue 8

Risks and opportunities for bulgarian food industry from the implementation of the transatlantic partnership for trade and investment

Assoc. Prof. Dr. N. Malamova, Institute of Agricultural Economics – Sofia,
e-mail: nonamal@abv.bg

Studies on the quality composition and properties of psychrophiles isolated from carcasses of small ruminants

Assoc. Prof. d-r Fejzulla Fejzullah¹, Prof. d-r Yordan Gogov², Assoc. Prof. d-r Miloslav Gikov³, Chief Assistant d-r Gergana Krumova-Valcheva^{2*}

¹State University of Tetovo, Macedonia, Faculty of Food Technology and Nutrition

²National Diagnostic and Research Veterinary Institute, Sofia

³University of Forestry, Sofia, Faculty of Veterinary Medicine

*e-mail: dr.krumova_valcheva@abv.bg

Issue 9

Is global warming in Europe going to result in a prevail of aflatoxins?

Assoc. Prof. Dr. Terry Vrabcheva, PhD
National Center for Public Health and Analyses
-mail: t.vrabcheva@ncpha.government.bg

Issue 10

Supplements based on caffeine which reduce weight

D-r Goran Popov

Issue 11

Moisture sorption characteristics of bread from jerusalem artichoke flour for prophylactic and healthy diets

Associate professor Eng. Albena G. Durakova¹, Associate professor Eng. Tzvetana Gogova²

¹University of Food Technologies, Process Engineering Department

e-mail: aldurakova@abv.bg

2University of Food Technologies, Technology of Grain, Fodder, Bread and Confectionery Products Department, e-mail: tzv_gogova@abv.bg

Technological quality of genotypes durum wheat, harvest 2014

Assoc. Prof. Ivanka Petrova PhD, Assistant Ekaterina Aleksandrova, Assoc. Prof. Nadka Mihalkova PhD, Prof. Gabriela Marinova PhD, Prof. Valentin Bachvarov DTS
Institute of Cryobiology and Food Technologies
-mail: pupesa@yahoo.com

Issue 12

Study on the migration of terephthalic acid in the bottles of polyethylene terephthalate

Svetla Chavdarova, Assoc. Prof. Dr. Terry Vrabcheva, PhD, Tanya Barakova
National Center for Public Health and Analyses
e-mail: t.vrabcheva@ncpha.government.bg
